HOW HE WAS CAUGHT. It is not often that a dealer in horses gots caught, says the Kingston Freeman, but a case in point shows how a Roundout dealer was brought up with around turn. A man named Goodwin, of Palenville, came to this city to purchase a horse. Entering a mart in Abel Street, the following conversation took place:

"I want to buy a horse." "Good. I have just the kind of animal that will suit you.

"Trot him out." The horse was "trotted" out, and the man from Palenville instantly recognized the of carpet bugs or buffalo moths. beast. He had purchased it in Montreal, Canada, fourteen years ago. At that time the age of the horse was given as six years. He had owned it twelve years, and then sold it to a man who owned it two years, thus making its age twenty years. While in Mr. Goodwin's possession the animal had acquired the habit of chewing to tobacco.

There," said the dealer, "he's a daisy." "How old is he?" inquired Goodwin. 'Seven years. He is as sound as a Spanthan three minutes.

"Are you sure the horse is only seven years old? "Certain sure. I know the man that

"Give me a chew of tobacco, will you?" said Goodwin. Receiving it, he handed the tobacco to the dealer with the remark: 'Just see if that horse will chew." To the surprise of the horseman, the pimal chewed the quid with evident

pleasure and whinnied for more.
Do you know this horse?" he asked.
"Well, I ought to," replied Goodwin,"
"being as I owned him twelve years. He six years old when I bought him, and was ther man had him for two years." Come out and take a drink," said the dealer. "That is the worst I ever was sold

REBUKED.—"All in fayah ob de motion as hit am put will signify hit by saying 'Aye'!" said the pompous chairman o a meeting of colored people, and a loud shout of "Aye!" was the response.

"All agin de motion say 'No!"

"No!" came more faintly, but from persons in all parts of the room. "Hit am carried unanimously," the chairman said, sagely.

This declaration was repeated several

times when there had been numerous dissentients. At last, an elderly darky rose in a corner of the room, and in a stentorian voice addressed the chair:
"Mistah Cheerman." "Mista Jackson," said the chairman,

recognizing the speaker.
"I rise, sah," said Mr. Jackson, ponderously, "to a pint of order. I jes' wanted to ask how come it dat you say de questions hab been voted unanimously, when dey has been voted only by a majority, The chairman rose with great dignity,

A fellow was on trial before a police nagistrate for stealing chickens. The proof was circumstantial, the main thing eming to be that footmarks were found in the snow near the roost, exactly corresponding with the prisoner's bootspatches, nails and all. The prisoner's counsel thought he had a green one in the cutor's witness, who was apparently all that fancy painted him. Counsel put this question: "Now, how do you know my client had on these boots last night? How do know I hadn't them on?" The gitnest demonstrate answered: "Course you didn't know they's any chickens

He gazed around the cheerful and comfortable-looking apartment, then, ad-dressing the widow, he said, "Your husbeen dead over a year now?" 'Yes," she answered, with a gentle sigh, "over a year." "I remember reading his obituary," he said, "and I thought that it contained a misstatement of facts." "A misstatement of facts?" "Yes; it said that he had gone to a better home. In my opinion it would be impossible for m to find a more cheerful, a more comortable, and, with you in it, a more ing and desirable home than this."
Idow smiled sweetly; then he popd, and was accepted.

What can I do, my darling," he whispered, "to prove my love for thee? Would that I could, at the peril of my life, rescue thee from bloodthirsty Indians, save thee from the fangs of the roaring lion, or snatch thee from a watery grave. Say, dear one, what can I do?" "Ask papa," she said, promptly. But he wasn't prepared to go so far as that. He went outside to see what sort of an evening it was, and he never came back again.

"He-he owes mother six months' board."

A little fellow ran to his mother the other day and asked, "Ma, can I have some bread and jam?" His mother, wishing to break him of the habit, replied: "When I was your age I couldn't get anything to eat between meals if I wanted it." "Yes," said the boy, after a moment's pause, "but you didn't have a good, nice mamma, like me, did you?" That settled it in favor of the young flatterer.

TRIFLING WITH SAFETY VALVES.-It s almost incredible that a man in his senses should walk up to a boiler which is discharging steam through its safety valve, and deliberately close that avenue through which the surplus steam might escape to prevent dangerous over-pressure.

And yet this thing is done with a fre-

quency which is alarming. Only a few days since we learned from an inspector that he had found a battery of boilers, every safety valve upon which was wedged down by a pine plug, "to keep them from leaking;" and now comes the particulars of an explosion in this State, reciting that one Arthur Leavitt, annoyed because the escaping steam from the safety valve of his boiler made his horses restless, fastened the valve down with a heavy weight. The natural consequence ensued, and, although swift retribution was meted out to the offender, he carried into eternity another innocent man, while as a result of his criminal act two men are suffering serious injuries, a pair of valuable horses and a large factory are destroyed and a prosperous business seriously interrupted. The man who will deliberately tamper with the safety valve of a steam boiler is a first-class rascal. If the consequences of his act reverted upon himself alone he

You can polish all brass work pears as if by magic. A moundy lemon put into a dirty saucepan half full of water and boiled for half an hour cleanses the utensil amazingly and removes any odor, such as fish or onions. SLEEPLESS DRAUGHTS .-- An English loctor, writing about sleep and sleeplessness, observed that the state narcotics produce is not sleep, but a condition of narcotism that counterfeits sleep, adding, When a man says, 'I want a quiet night, will take a sleeping draught,' he speaks in parables. To express the fact plainly, he should say, 'I want a quiet night; I cannot obtain it by going to sleep, or I am afraid to trust to the chances of natural rest, so I will poison myself a little, just enough to make me unconscious, or to slightly paralyze my nerve centres, not enough to kill.' If this fact could be kept before the mind, the reckless use of drugs which produces a state that mocks sleep would be limited." The state of inaction which is brought about by natural sleep is very different from that which is produced by paralysis of any degree.
